

345530

bticino

Teleloop module to be used in conjunction with the display module Linea 5000 (345000). It allows people wearing hearing aids fitted with (T) selector to use audio door entry communication. In this mode, the hearing aid receives the audio signal directly from the amplification system, bypassing the microphone of the hearing aid itself, improving audio quality and reducing background noise. It is connected to the display module using the appropriate multicable supplied. To be completed with the appropriate finishing frame (available in 5 finishes) The device CANNOT be used stand-alone but only as additional module in conjunction with the Linea 5000 display (345000). To be installed in 1-module flush mounted box 350010 or with the dedicated accessory 345341 or 345342 for 3+1 composition.

### Technical features

|                  |               |
|------------------|---------------|
| Brand            | BTicino       |
| Rated voltage    | 18-27 Vdc     |
| Modules          | 1             |
| Protection class | IP65          |
| Dimensions       | 129x127x41 mm |
| Height           | 127 mm        |
| Width            | 129 mm        |
| Depth            | 41 mm         |
| Plant type       | 2 wires       |
| Robustness       | IK08          |
