

3488

HOMETOUCH - 7" touch screen for managing all MyHOME functions that can be integrated with the video door entry system for use as a connected internal station. It does not require any configuration for the use of the home automation functions. It allows to view the status of the MyHOME system and to control the integrated functions (lights, automations, scenarios, temperature management,...). Thanks to the "DOOR ENTRY for HOMETOUCH" application, available both for Android and iOS operating systems, it is also possible to manage the video door entry functions of a BTicino 2 wires system using the 7" capacitive display or the Smartphone. Flush mounting installation with dedicated box item 3487 or on the wall thanks to the metal bracket supplied.

Technical features
