

## 3585C

Motion sensor, it controls one or more devices connected for light control. Infrared detection with angle of 140 ° Distance of the adjustable sensor from 2 to 8 m. Switch off delay with 1 to 30 min adjustable delay time and 1 to 1000 lux brightness threshold. Test possible with a 5 sec. delay Recommended assembly height: 2.5 m. Optimum distance between 2 detectors: 6 m. For indoor and outdoor use (IP44). Supplied with 2 x 1.5V AA batteries for power supply.

### Technical features

|                       |                        |
|-----------------------|------------------------|
| Brand                 | BTicino                |
| Rated voltage         | 2 pile da 1,5V tipo AA |
| Protection class      | IP44                   |
| Height                | 114 mm                 |
| Width                 | 77 mm                  |
| Depth                 | 48,5 mm                |
| Plant type            | Radio                  |
| Illuminance level     | 5 a 1000 lux           |
| Installation height   | 2,5 m                  |
| Operating temperature | +5 C + 45 °C           |
| Connection type       | Connected              |
| Colour                | White                  |
| Series                | Living Now             |
