

363926

One-family video kit with connected Classe 300EOS with Netatmo hands-free video internal unit (black finish) and Linea 3000 entrance panel (black finish). Connected 2-wire / Wi-Fi hands-free video internal unit with built-in Amazon Alexa voice assistant, vertical 5" LCD touch screen display and video door entry answering machine. Integrated SCS Server for managing MyHOME wired systems. It can be used alternatively to the SCS Server DIN Item MhServer 1. It is possible to interact with the integrated Alexa voice assistant via dedicated capacitive keys or with the voice to activate video door entry system functions, Smart Home, routines, reminders, etc. Thanks to Wi-Fi connectivity, it is possible to associate the video door entry unit with the Home + Security App (available for Android and iOS). The App allows you to use the main door entry system functions (call reception, electric lock activation, display of the event timeline and activation of the external unit / camera cycling). The Home + Security App can also be used to manage the products of the Netatmo security offer (outdoor and indoor cameras, door and window sensors, indoor siren, smoke detector). This allows you to create a Smart security system simply and quickly. Linea 3000 entrance panel with black finish zamak front panel, wide-angle color camera and proximity reader with a kit of colored badges and two clear discs for door lock activation / release. Can be wall-mounted or flush-mounted with the specific accessories: (350020) flush-mounted box and (343063) flush-mounted accessory - to be purchased separately. It can be equipped of rainproof roof (343053) – to be purchased separately. The entrance panel has an IP54 degree of protection - IK10 degree of robustness.
