

373008

7" PoE powered standard indoor unit, black finish. From the touch display, it is possible to answer the call, open the lock, call the other apartments and the guard station, view call and alarm logs, leave audio messages, receive messages from the guard station, adjust the settings (e.g. brightness and ring tone), and view date/time information. Alarm management can be easily integrated thanks to 8 pre-arranged dedicated contacts. The integration with the Onvif CCTV IP cameras allows to view the IP cameras of the apartment and the common area from the indoor unit. The specific integration also allows control of the lift. It is possible to associate the video indoor unit to the Home + Security App (available for Android and iOS). The App allows to use functions such as: receiving calls, door lock release, display of the event timeline and activation of the entrance panel. With the Home + Security App, it is also possible to manage the products of the Netatmo Security range (outdoor and indoor cameras, door and window sensors, indoor siren, smoke detector). This allows you to quickly and easily create a Smart security system. The indoor unit can be PoE (power over Ethernet) standard IEEE 802.3at, PoE 24 V using item 375002, or directly powered using power supply 375005. Wall mounted using the supplied bracket.

Technical features

| | |
|-----------------------|----------------------|
| Brand | BTicino |
| Rated voltage | 44-57VDC |
| Protection class | IP30 |
| Dimensions | 189x122x27mm |
| Height | 122mm |
| Width | 27mm |
| Length | 189mm |
| Maximum cable section | 0.8mm |
| Plant type | IP |
| insertion | RJ45 |
| Installation height | 160-165cm |
| Operating temperature | (-10°)-(+40°)C |
| Resolution | 1024x600dpi |
| Colour | Nero / Black |
| Series | IP Door Entry System |
