

## E56

Power supply with input voltage 110 – 240Va.c. @ 50 – 60 Hz. The output provides two power supplies in very low safety voltage (one of 27V d.c 1.2A on the SCS terminals, one of 28,5V d.c. on terminal 1 - 2) to be used alternately and NOT at the same time. It can also be used as additional power supply (1 - 2 output) for the local power supply of the automation devices (in this case it is not possible to use other outputs). The device is electronically protected against overload and short circuit. It is a SELV double insulation safety device - Size 6 DIN modules.

### Technical features

Brand	BTicino
Rated voltage	27Vdc
Input current	1.2A
Modules	6
Series	MyHome

### Commercial data

Minimum quantity	1
Sales unit	1
EAN code	8005543693629

### Technical documentation
