

## F41DM125

Three-phase meter for direct connection - output RS485 - In= 125A - 6 modules - MID certification guaranteeing the measurement precision in view of a re-billing of the power consumed.

### Technical features

|                    |                           |
|--------------------|---------------------------|
| Brand              | BTicino                   |
| Reference Standard | CEI 62053-21/23           |
| Rated voltage      | 328-480Vac-190-277Vdc     |
| Input current      | 125A                      |
| Rated power (VA)   | 5VA                       |
| Modules            | 6                         |
| Protection class   | IP54                      |
| Series             | Measuring and supervision |

### Commercial data

|                  |               |
|------------------|---------------|
| Minimum quantity | 1             |
| Sales unit       | 1             |
| EAN code         | 8005543621059 |
