

## F422A

2 Din modules interface between SCS BUS based systems, dedicated just to the logic expansion of the address extension and not to all the functions supported with F422. It can be used with both, DIN server item F460 and video door entry Classe300EOS with Netatmo. Each interface can add 175 addresses, with a maximum of 2 interfaces allowed for installation (max 2 interfaces in installation with DIN server item F460 and max 1 interface with Classe300EOS with Netatmo as server). Thanks to this device you will be able to overcome the current limit of 175 addresses and configure huge installations with up to 525 addresses. No parameters to take into consideration because the assignment is automatic.

### Technical features

Brand	BTicino
Rated voltage	18 – 27Vdc
Input current	8mA
Modules	2
Series	MyHome, Living Now, Livinglight, Matix

### Commercial data

Minimum quantity	1
Sales unit	1
EAN code	8005543714959

### Technical documentation

? Technical Data Sheet
