

N4502C

Gateway with French/Belgian standard socket. The gateway creates a connected installation in your home. It can be used to control lights, shutters, and electric appliances plugged into connected sockets: - using the smartphone and the Home + Control app, - using the voice assistants, - from the general control at the home entrance. It integrates a 2P+E 16 A 250 Va.c. German standard connected socket for the remote control of electric devices and to monitor their consumption (instantaneous, daily, monthly). Compatible with all the electric devices with power up to 16 A 3680W (with overload protection). It can be installed instead of an existing socket in a 40 mm deep box. Screw fixing and connection using automatic clamps. It has a blue LED that lights up when the socket is ON and that can be configured by means of the Home + Control APP. It can be associated to one or more wireless light controls. It is also supplied with wireless master IN&OUT scenario control, required for the association of all connected devices. Power supply 110-230 Va.c.
