

## F418U2

Dimmer two channels for managing dimmable LED, dimmable compact fluorescent lamps CFL, halogen and energy-saving electronic transformers at 110-230V. Possibility of parallelization of the two channels to increase the maximum power handling. Power 27 Vd.c., absorption 18 mA - for securing execution on DIN - 4 modules

### Technical features

Brand	BTicino
Rated voltage	27Vdc
Rated current	18mA
N° of modules	4
Series	MyHome
