

BTICINO &gt; Door entry system &gt; 2 wires system &gt; Accessories

## F441M

Multi-channel matrix in 10 DIN modular enclosure. Set up for the connection of video entry system entrance panels, cameras and sound system sources in input and internal units and amplifiers in output. 4 inputs are dedicated to entrance panels/cameras and 4 to the sound system sources. It can be used to create multi-channel sound systems. The device must be used with the system power supply 346000. In the systems it replaces the video adapter 346830 and the audio video node F441

### Technical features

Dimensions	10 DIN
N° of modules	10 DIN
